

## RECITALS

WHEREAS, Marathon owns and operates assets in the Cook Inlet, Alaska (“Marathon Assets”) used for the exploration, development, production, transportation, and sale of crude oil and natural gas, which the State alleges account for approximately 35% of the natural gas produced in the Cook Inlet annually;

WHEREAS, Hilcorp also owns and operates assets in the Cook Inlet, Alaska (“Hilcorp Assets”) used in the exploration, development, production, transportation, and sale of crude oil and natural gas, which the State alleges account for approximately 35% of the natural gas produced in the Cook Inlet;

WHEREAS, the State alleges that Marathon and Hilcorp compete directly with the other for the sale of natural gas within the same market;

WHEREAS, the Defendants have executed an agreement dated April 5, 2012 (the “Purchase Agreement”), pursuant to which Marathon has agreed to sell, and Hilcorp has agreed to purchase, all or substantially all of the Marathon Assets (the “Acquisition”), subject to certain conditions set forth therein;<sup>1</sup>

WHEREAS, the Acquisition will combine under Hilcorp’s sole ownership all of Hilcorp’s Assets and Marathon’s Assets, and the Attorney General believes that these combined assets will constitute a significant portion of all assets currently located and available in the Cook Inlet that are necessary to compete in the relevant markets for the production and sale of natural gas;

---

<sup>1</sup> The Acquisition will also require approvals from the Regulatory Commission of Alaska for the transfer of certain pipelines under AS 42.06.305.

WHEREAS, the State alleges that the Acquisition will result in Hilcorp obtaining increased market power over the sale of natural gas in the Cook Inlet;

WHEREAS, Hilcorp believes the Acquisition will create efficiencies and achieve meaningful synergies, including but not limited to, by (1) allowing Hilcorp to use its expertise, experience, and capital to substantially increase reserves and production of natural gas in the Cook Inlet; (2) eliminating certain inefficiencies caused by the joint operation of certain assets by combining those assets under the common control and direction of a single owner to enable more streamlined and efficient discovery, development and production of natural gas in a timely fashion; (3) eliminating redundancies in operations and allowing for the opportunity to utilize resources more efficiently; (4) encouraging increased investment in the exploration, development and production of natural gas resources by removing conflicting company policies, objectives, business models and strategies; (5) stimulating the growth and development of the oil and gas support services industry in the Cook Inlet as the result of Hilcorp's exploration, development and production efforts in the Cook Inlet; and (6) providing geographic alignment for Hilcorp's onshore fields on the east side of Cook Inlet.

WHEREAS, the State, through its Attorney General, alleges in its complaint that the Acquisition may be unlawful under Alaska antitrust law (the allegations in the State's complaint are re-alleged and incorporated herein);

WHEREAS, the State has brought this action against Defendants on behalf of the people of Alaska, and in the State's capacity in *parens patriae*;

WHEREAS, the State has taken considerable steps to incentivize and encourage increased investment, exploration, and competition in the Cook Inlet natural gas market. Without increased exploration and production of Cook Inlet natural gas, there is a risk that existing supplies of natural gas might be insufficient to meet projected demand for Cook Inlet natural gas in the future; increased exploration and production of Cook Inlet natural gas is the most time and cost efficient option for addressing this issue;

WHEREAS, it is in the best interest of Alaska to encourage as much exploration, development and production of existing and new natural gas reserves as possible while at the same time preserving competition and competitive pricing to the greatest extent possible;

WHEREAS, the State has undertaken an aggressive campaign to expedite natural gas storage capabilities and seek investors and companies that will increase investment and production of gas in Cook Inlet;

WHEREAS, the State believes any anticompetitive effects of this Acquisition will be substantially mitigated through the terms of this Consent Decree, and that the Acquisition will result in beneficial effects for the State;

WHEREAS, Hilcorp has pledged to act in good faith to ensure not only that the terms of this Consent Decree are complied with promptly, but to conduct its business as a reasonable and prudent operator in accordance with its lease obligations and by utilizing commercially reasonable efforts to increase the production and development of natural gas from Hilcorp's Cook Inlet Basin Properties;

WHEREAS, Hilcorp and the State do not believe that the terms of this Consent Decree will prevent Hilcorp from accomplishing the efficiencies and mutual benefits described above;

WHEREAS, neither the execution nor entry of this Consent Decree nor the terms hereof are intended to alter, modify, supplement, nor rescind in any way the respective rights or obligations of the Defendants related to the Acquisition;

WHEREAS, Defendants do not admit, and continue to deny, that such transaction is unlawful;

WHEREAS, the Court has made no determination of any violation of law;

WHEREAS, the State and the Hilcorp Defendants wish to avoid litigation and to resolve the controversy on mutually acceptable terms;

WHEREAS, the State and the Hilcorp Defendants have agreed to be bound by the provisions of this Consent Decree;

WHEREAS, the Attorney General believes the terms of this Consent Decree are fair and reasonable and in the public's interest;

IT IS HEREBY ORDERED, ADJUDGED, AND DECREED as follows:
